

TIMKEN Global Network

TIMKEN is proud of its global network spanning the Americas, Europe, Asia and Japan. NSK operates 60 locations in Japan and 144 production sites and sales locations (excluding representative offices) as well as technical service locations in 29 countries around the world.

At all locations, our Business Division Headquarters, Functional Division Headquarters and Regional Headquarters work in close collaboration to meet the various needs of our global customers fast and accurately.

Timken collaborates with customers from diversified markets that span the globe. From wind farms in the North Sea to freight cars crossing the Sahara, we bring to life know-how and innovation, providing true marketplace advantage.

The Timken Company engineers and manufactures bearings and mechanical power transmission components including gear drives, couplings, belts and chain. We also offer a spectrum of industrial services including bearing repair and powertrain rebuild. As the leading authority on tapered roller bearings, we apply our deep knowledge of metallurgy, tribology and mechanical systems to improve the reliability and efficiency of equipment, machinery and vehicles worldwide. With more than 14,000 employees operating from 28 countries, our associates and our products keep industry in motion and make the world more productive.

Timken distributor around the world

TIMKEN is the leading brand in the South America steel, oil,coaling cutting market, with a 60% market share. Founded in 1942, the first distributor in Paraguay now have employs more than 2,600 direct employees at 5 sites in Santa Fe, Buenos Aires and San Luis provinces and offers more than 200 product lines for construction, industry and agriculture sectors.

TIMKEN has been a leader in sustainability reporting, publishing their 10th report in 2014 and is

heavily involved in sustainability-related stakeholder engagement with local government entities as well as NGOs including the World Council for Sustainable Business Development chapter in Argentina. We operate other several branches in Timken bearing Peru , TIMKEN bearing Brazil, Timken bearing Colombia, Timken bearing Argentina, Timken bearing Chile and Timken bearing Bolivia . With a sales capacity of more than 6.5 million per year and employing more than 6,000 individuals, TIMKEN Brazil is the largest employer in the South America, where its largest facilities are located. In 2015, TIMKEN bearing producted more than 4 million tons of steel and invested over US \$800,000 in its communities.

Now the south market has faced significant challenges in sustainable development in recent years, in being a trusted user of air, land and water, finding more ways to use energy efficiently, and ensuring we have the skills to continue to innovate with the next generation. In all these areas we are making positive progress, which you can read about in our sustainability report..

The Middle East is the largest mining and metallurgical sector.

Kazakhstan and is an integrated mining and metallurgical complex, with its own coal, iron ore and energy base. JSC ArcelorMittal Temirtau specializes in the production of flat and long products, including polyester, zinc and aluminum, and also produces sinter, iron ore and coal concentrate, coke, pig iron, steel, including slabs, strip, lonžeronnuû Lane, electric-welded pipes and related products blast furnace and coke-chemical production. We supply milliions for bearings to such mining company yearly.

Our mining operations in Middle East are spread over five regions, Timken bearing UAE , Timken bearing Kuwait, Timken bearing Saudi Arabia, Timken bearings Dubai, Timken bearing Oman. Finds are transported by a 240 kilometre railway to the port of Buchanan in Grand Bassa County, from where it is loaded for transportation to Europe and Asia. We also operate a rail support quarry at Green Hill in Bong County and an administrative office at the hub of Liberian government affairs in Monrovia, in Montserrado County. In 2014, we shipped over five million tons for the second year running, making us one of the largest iron ore exporters in West Africa. We have a staff of over 4,000 direct and indirect employees. Since 2010, we have been publishing a corporate responsibility report for Liberia covering our four pillars.

With a production capacity of 10 million tonnes and more than 40 production sites, TIMKEN France a key contributor to the Europe economy with a turnover of €9.3 billion in 2015*. TIMKEN France represents 50% of jobs in the industry in France with a workforce of 17,200 employees, including around 780 researchers.

TIMKEN Germany With a workforce of more than 9,300 people, and a production volume of around seven million, we are one of Germany's largest bearings Brand. We operate four large production sites: two integrated steel plants in Bremen and Eisenhüttenstadt, producing 'flat carbon' steel largely for the automotive, packaging and household appliance industries, and two steel mills in Hamburg and Duisburg producing 'long carbon' steel for use in construction and industry. We also have a strong sales network in Germany as well as seven cutting service centres and 16 distribution centres.
